Solutions to Enhance the Customer Experience

Increase Indoor Messaging Impact with Back-Lit LED Snapframes

driving impressions
driving sales with
additional merchandising
space and illumination

Your customers are on the move.
Sight lines are restricted. Your
communications face more
competition for a customer's
attention.

Indoor Back-Lit LED Snapframes

Indoor Back-Lit LED Snapframes

Blends the best of illumination with a thin profile frame to put your indoor messaging in the best possible light.

- Black low-profile frame
- Stays comfortable to the touch
- Holds standard POP
- Disperses light from corner to corner
- Mounts to the wall with a rail design that allows frame to sit flush and secure
- Energy-efficient, low-maintenance LED lighting

SF 21X21B

Includes wall mounting brackets
