

Digital Makeover - Seamless Digital Integration

Florida Plastic's affordable Digital Makeover solution integrates your digital screen to complete and polish the look of your entire indoor menu board system.

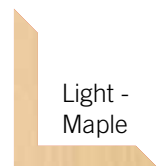

Digital
Makeover
Seamless
Digital
Integration

Digital Makeover finishes the look of the indoor menu board system by integrating the digital screen into the MB2K system. The Digital Makeover enhances your store ambience with industrial grade vinyl clad steel that simply snaps around the digital screen and component. 3 wood grain colors are available to tie the digital component to the MB2K menu board system.

Why Digital Makeover?

- Seamlessly Integrates Digital into the Current MB2K Menu Board System
- 100% Match to MBK2 Makeover
- Minimal Cost
- Easy Installation; no tools required
- 2-Year Warranty
